#### NOTES AND NEWS ITEMS

**DESTROYING THE WILD FLOWERS.**—Within a few days our own Russ hordes will begin making incursions into the loveliest regions of Chicago's environs to look at nature's new smiling face. They will be composed of amiable people, yielding to a gracious, esthetic impulse. They will be nice folk, well disciplined, considerate, and kindly.

They will devastate field and wood. They will yank wild flowers out by the roots and scatter withered blossoms along every trolley and railroad track. They will fill baskets with flowers that cannot stand even the trip back into town, and, if they could, would lost most of their beauty when dragged from their proper environment.

It would astonish these folk to tell them that they are exterminating the wild flowers in places accessible from Chicago.
